## PROFESSIONAL EXPERIENCE

---

### **JOYCHARGE Inc, Venture Capital** *Founder*

**New York, NY**  
2008 - Present

- Titular of an *Electro-Chemical Cell* based on the Runtime Environment first encountered at the University of Pennsylvania's Physics Department in Philadelphia in 2005. This electrical system called the *daniell cell* (belonging to Wharton's Spike Username Namespace) is a compact utility producing Hydrogen and is used as a *Gravity Cloud* for Clean Energy fueling mechanisms.
- Domain Management: Acquired the whole domain Url spectrum necessary to create the Venture's website. Created an independent and proprietary platform spanning the integral IO system for devices used to build Hydrogen Filling Stations.
- Developed an A to Z framework that creates an innovative and unique database for the website's lower level UI (User Interface) and a higher level IP (Internet Protocol) zone management in order to produce a vibrant and concurrent user experience across the whole system; from browsing to blue-printing a fresh design in the Venture's Estate.

### **Facebook, Inc. Private Equity** *Software Architect - Corporate Finance*

**Menlo Park, CA**  
2014

- Invested Intellectual Property in the Social Network to expand the current framework into a redefined cloud designed in C++. Tied up partnerships with Arm, Google and Microsoft in order to filter security breaches and add server capabilities.
- Restructured portions of the company's email server to a relative database built on the original and popular namespace. The *@facebook.com* email domain is a pervasive and powerful pop3 application for original Java computing.

### **Bear Stearns & Co., Corporate Finance** *Analyst*

**New York, NY**  
1999-2000

- Managed Operations, IT and Sales of Equity on the Trading Floor for Institutional Investors.
- Performed financial and capital modeling, indicative pricing benchmarked to current market transactions and issuer profile, detailed sector and company research, and quantitative analysis.

### **Banque de Gestion Edmond de Rothschild, Investment Management** *Analyst*

**Monaco, MC**  
1998

- Created Portfolio Analysis for Clients and assisted Traders in making investment decisions on Global Stock Markets, involving risk management and balanced cash flows.

## EDUCATION
